Brian Buchalter

NANODEGREE

Front-End Web Developer

PROJECT

HTML Mockup

Dear Brian,

Congratulations on finishing the project! I'm glad you're trying out the Bootstrap framework.

Your project passed and I congratulate you for accomplishing your first step toward your Nanodegree! Below are general comments to your portfolio and how each section was evaluated.

Good luck in the next project!

Design**Meets Specifications**

- The DOM tree correctly represents the page content.
- Page elements use semantic tags where appropriate.
- Design uses grid-based layout principles.

Responsiveness**Meets Specifications**

- Portfolio is responsively designed and render appropriately on all three required various devices [iPad, Nexus 5 phone, and laptop]

Separation of Concerns**Meets Specifications**

- Page completely separates structure (HTML) from design/style (CSS).

Code Quality**Meets Specifications**

- Code is formatted with consistent, logical, and easy-to-read formatting as described in the Udacity HTML / CSS style guide

PROJECT EVALUATION

Project Meets Specifications

Suggestions

- You no longer need to specify type="text/css" in your stylesheet links as modern browsers will assume style sheets are "text/css" already.
- You no longer need to specify type="text/javascript" in your script links as modern browsers will assume scripts are "text/javascript" already.
